

Filler treatments to enhance
every area of the face

Love your look

Discover how millions can
achieve natural-looking results

 Juvéderm®

Face the world looking and feeling your best

As we get older we grow richer in experience and confidence, but there is one thing we may lose: a youthful look to our skin. Then, what you see on the outside may not live up to the vibrant person you feel inside.

JUVÉDERM® is a range of facial filler treatments that gently ease signs of ageing or subtly enhances what nature has given you. The JUVÉDERM® range has formulations to enhance many areas of the face, and after a consultation with your physician, JUVÉDERM® can make the most of your best features and produce results that are natural-looking.

Your face is one of your most precious assets; it's the way the world sees you and how you express yourself; every detail adds to your unique personality. Talk to your physician to find out how JUVÉDERM® can help you achieve the look you desire.

'It's just as if I've been on holiday... my skin looks smoother and I look younger.' — Violet

JUVÉDERM® facial fillers – chosen by millions

JUVÉDERM® is used by millions of people all around the world to enhance their facial looks.

Our unrivalled scientific technology has enabled us to create a gel with an smooth consistency. This means that JUVÉDERM® flows easily into the skin for a natural look and feel.

Facial fillers can smooth wrinkles and add volume in a subtle way that does not require surgery

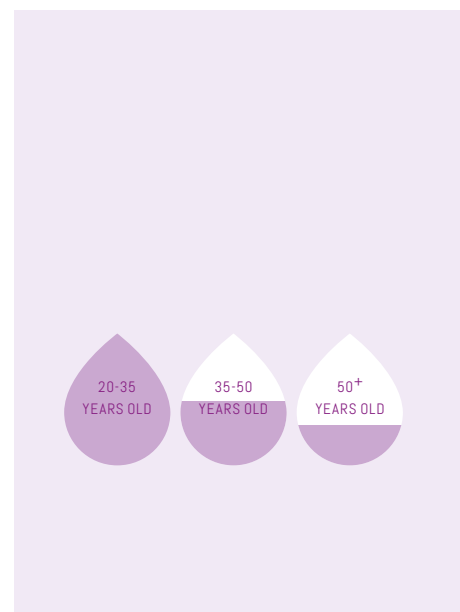

JUVÉDERM® injectables are a minimally invasive cosmetic treatment, so recovery time is short and you will be able to continue your normal life with little disruption. The results are shown to last up to a year.

JUVÉDERM® has been used in over 26 million treatments

How skin ages

Young skin is constantly moisturised from within by hyaluronic acid, a naturally occurring sugar. Hyaluronic acid absorbs moisture and keeps your skin well hydrated for a youthful look.

As we age, our skin loses hyaluronic acid; it starts to become dry and volume decreases. Wrinkles and folds start to appear. Other factors also play a part in the ageing process; for instance, gravity pulls the skin down and this results in folds and sagging.

How JUVÉDERM® works

JUVÉDERM® is a range of hyaluronic acid facial fillers and each smooth gel formulation addresses a specific and unique issue. The gel is injected under the skin by your physician using an ultra-fine needle. The gel fills lines and wrinkles and adds subtle volume. The

hyaluronic acid within the gel retains moisture.

Depending on the treatment and product, results can last approximately up to 18 months.

JUVÉDERM® is also formulated with lidocaine,¹ an anaesthetic, which makes the treatment more comfortable.

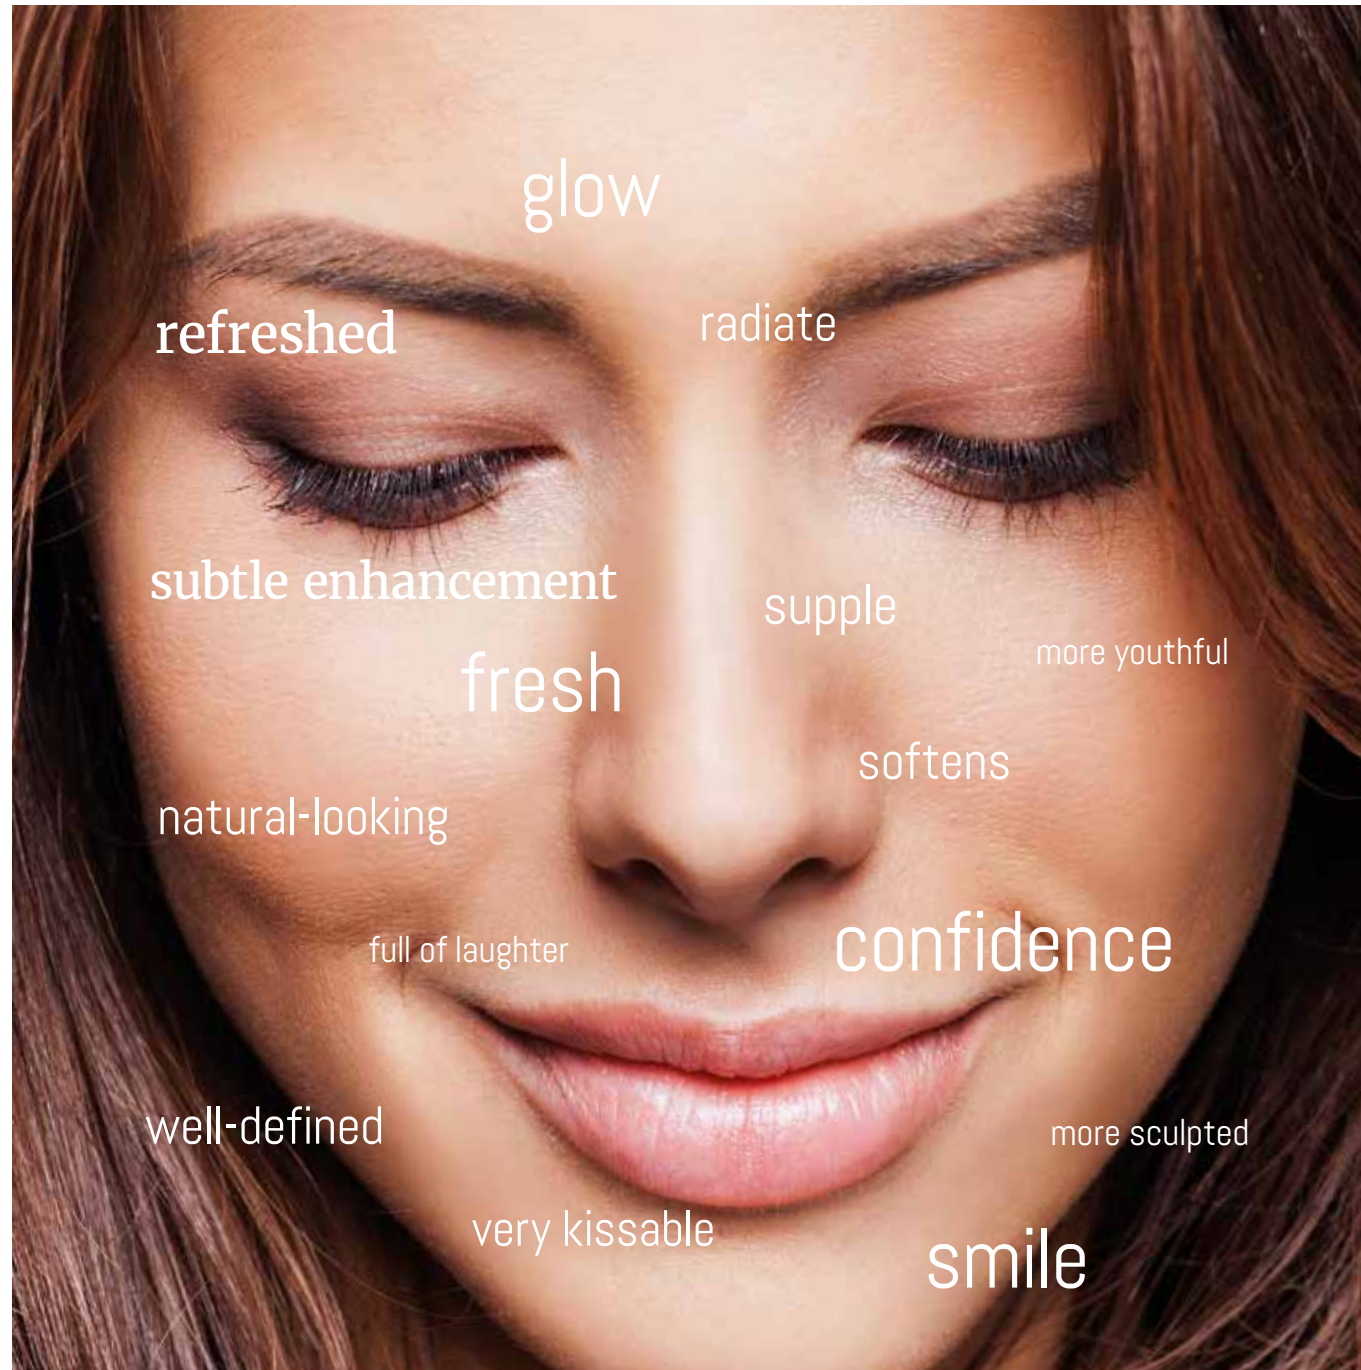

Many moisturisers contain hyaluronic acid, but facial fillers containing hyaluronic acid, like JUVÉDERM®, can replenish the hyaluronic acid deep within the skin.

'It just makes you feel brighter and younger.' — Morag

Real words, real feelings

Some words that women have
said after their JUVÉDERM® treatment

JUVÉDERM® enhances every area of the face

JUVÉDERM® facial fillers have a wide range of treatments which can make subtle enhancements to every area of the face.

Your physician, will take a close look at your face and take the time to discuss the different facial treatment options. They will recommend a treatment plan using formulations from the JUVÉDERM® range, either singly or in combination.

JUVÉDERM® enhances your
face in three main ways

Revitalises

JUVÉDERM® reduces or smooths lines, wrinkles and folds for a fresher, brighter facial look.

Lifts

JUVÉDERM® restores lost volume to cheeks and chin for a gentle lifting effect.

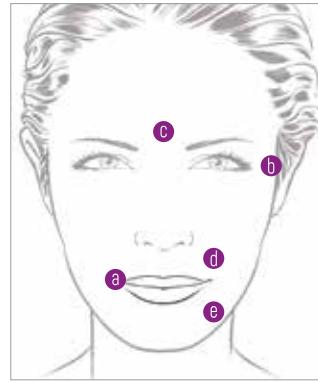

Defines

JUVÉDERM® subtly reshapes and redefines lips and facial contours.

Revitalise

Where the JUVÉDERM® ULTRA® range smooths your skin

JUVÉDERM® reduces or smooths lines, wrinkles and folds for a fresher, brighter facial look.

How your skin gets lines and wrinkles

As we age, our skin loses hyaluronic acid and fine lines start to appear. Some lines become wrinkles due to outside factors like sun exposure, diet, and years of facial muscle movement. Fat loss and sagging may turn lines into folds. Common lines, wrinkles and folds are: a) lip lines, b) crow's feet around the eyes, c) glabella frown lines, d) naso-labial folds and e) 'marionette' lines.

JUVÉDERM® has smoothed frown lines, naso-labial folds (running from nose to mouth) and the fine lines around the eyes.

'People say I look fresher, even though I haven't told anyone!' — Amanda

The JUVÉDERM® ULTRA® range has formulations to treat everything from fine lines to deep folds and wrinkles

Glabella frown lines

Crow's feet

Naso-labial folds

Vertical lip lines

'Marionette' wrinkles from mouth to chin

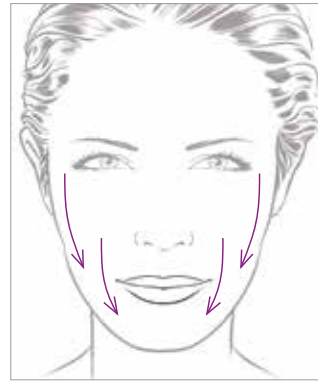

The JUVÉDERM® ULTRA® range has been demonstrated to diminish severe wrinkles for results lasting up to a year

Lift

How JUVÉDERM® VOLUMA® with lidocaine lifts your look

JUVÉDERM® restores lost volume to cheeks and chin for a gentle lifting effect

How gravity pulls your face down

A young-looking face has round contours, high cheekbones and a well-defined jawline. There are smooth curves from the cheeks to the edge of the nose, without hollows. Ageing causes the soft tissues of the face to lose volume. Skin also loses elasticity and then gravity takes hold. The skin starts to sag, pulling the features downwards.

JUVÉDERM® replenished lost skin volume to regain a youthful curve to the cheeks, making them higher and firmer.

'You immediately see a positive effect happening to your skin... my face looks lifted.' – Violet

JUVÉDERM® VOLUMA® with lidocaine adds volume to areas which need a little more support or enhancement

- Subtly reshapes the cheeks to make them high and firm
- Restores facial volume
- Recreates more youthful facial proportions
- Smooths the jawline
- Accentuates the curve of cheekbones
- Replenishes moisture so skin regains natural elasticity and tone
- Gives a gentle lifting effect without surgery

The lifting effects of JUVÉDERM® VOLUMA® with lidocaine lasts up to 18 months

Define

How JUVÉDERM® enhances the definition of your lips and facial contours

JUVÉDERM® subtly reshapes and redefines lips and facial contours

Lips and facial contours lose definition as we age

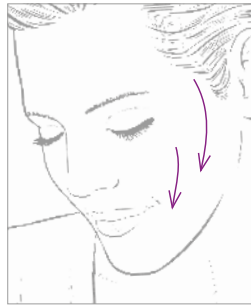

As we age our lips lose volume, become thinner and the contours are less firm.

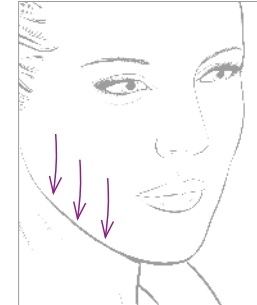

The lip edges are broken up by fine vertical lines, caused by pursing the lips.

As our skin loses hyaluronic acid, facial volume is lost and the youthful facial contours of our cheeks diminish.

Over time our mid-face loses volume and the lower face begins to form jowls. The chin loses its firm shape.

JUVÉDERM® was used to define the lip shape, ease lines around the mouth and add a youthful outline to the cheeks.

Before

After

JUVÉDERM® adds definition to the mouth and the outline of the face

Redefines and restores natural-looking contours to the chin

Restores lip fullness for subtle definition

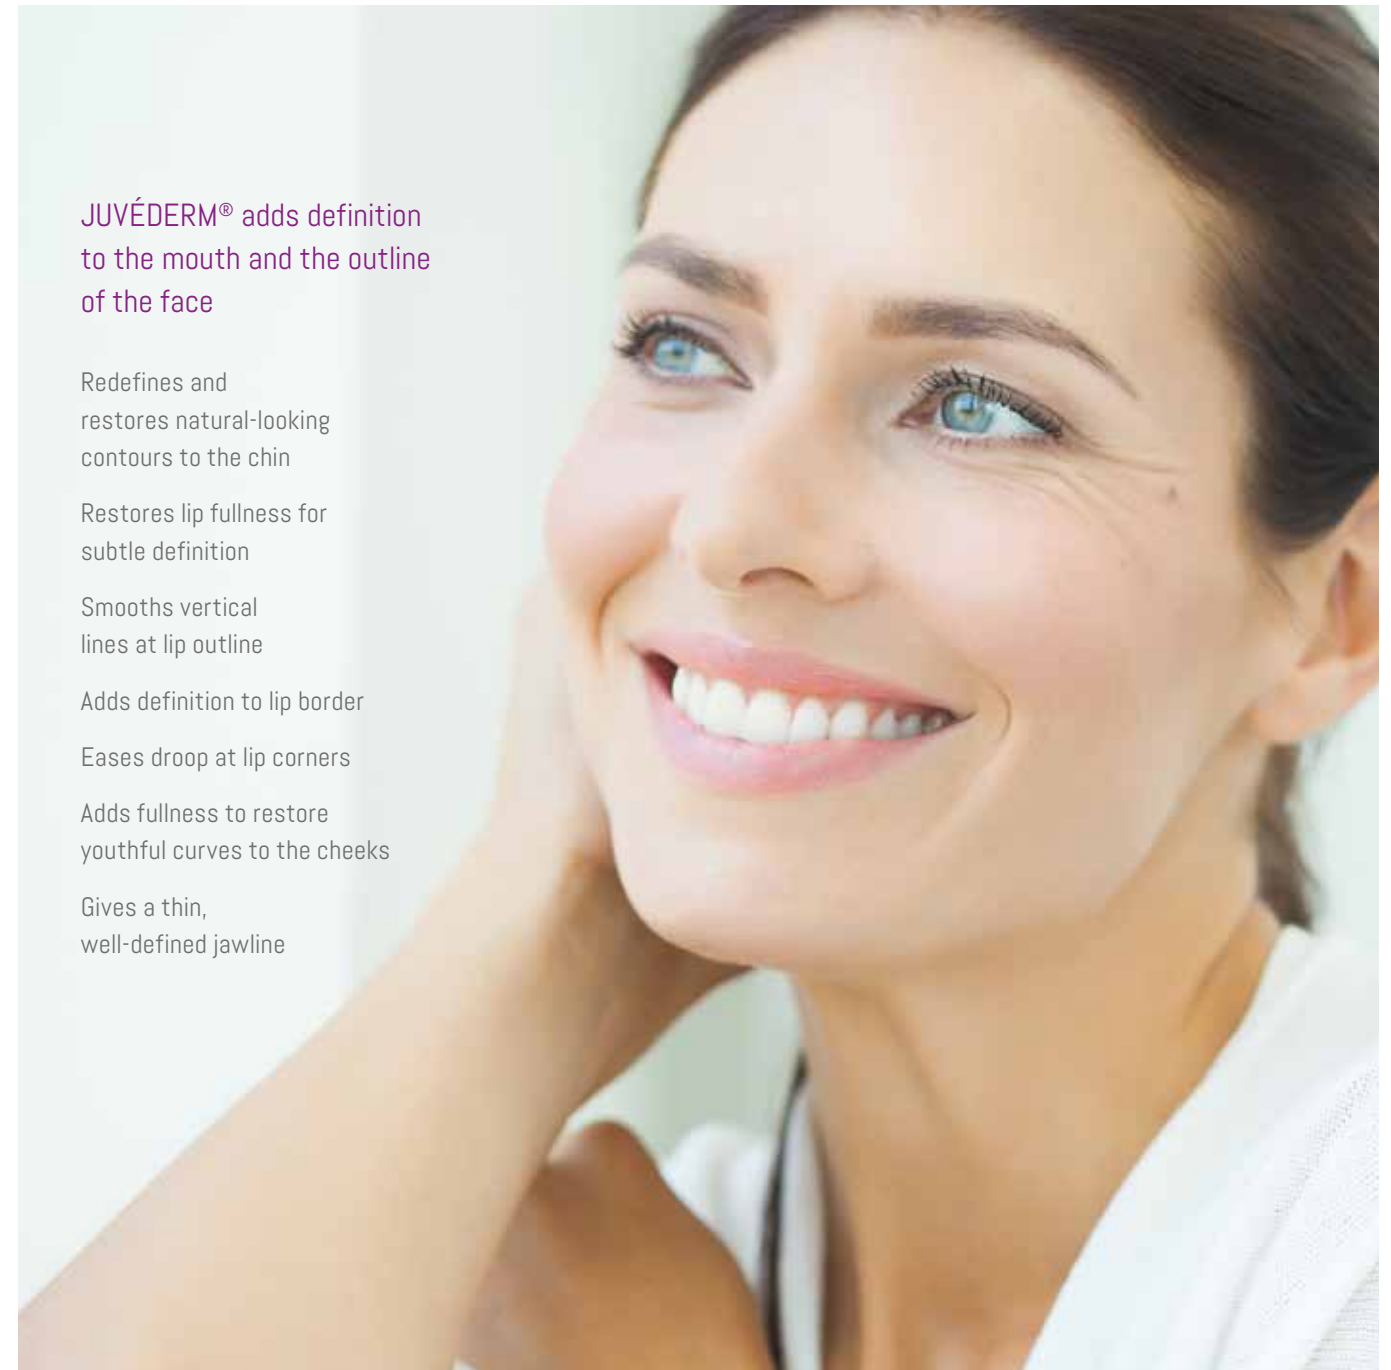

Smooths vertical lines at lip outline

Adds definition to lip border

Eases droop at lip corners

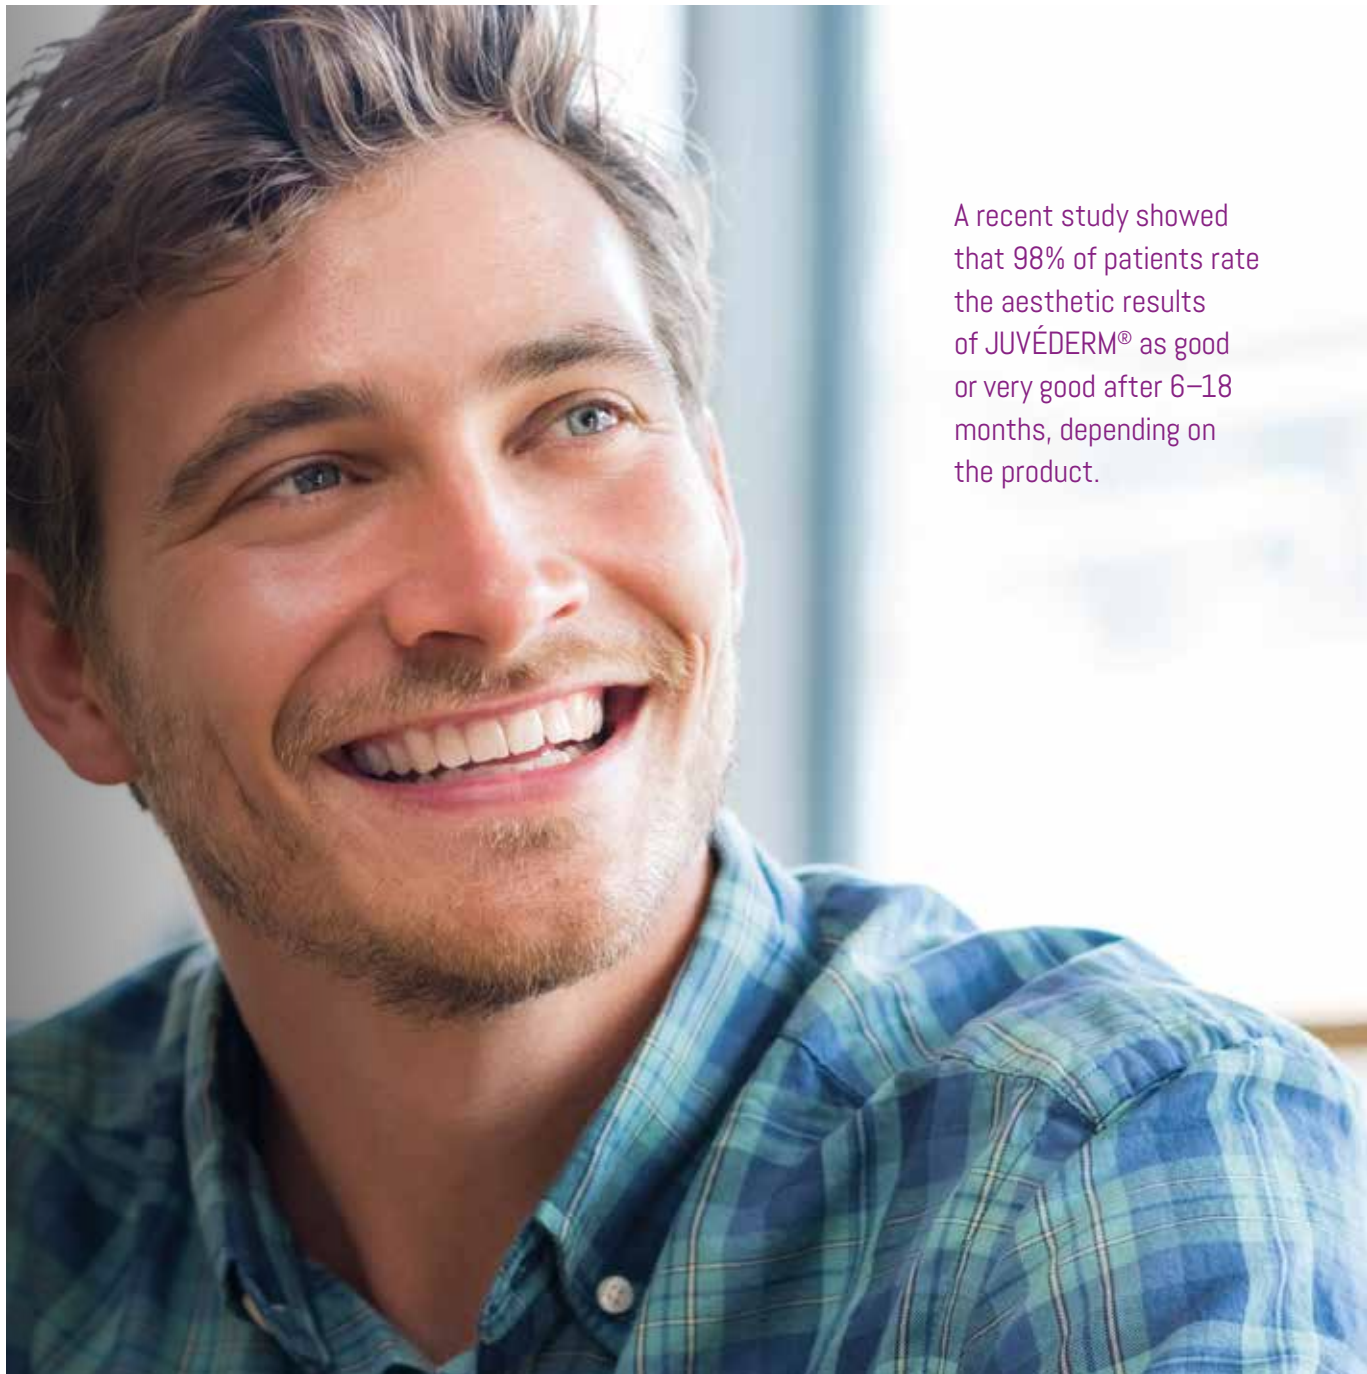

Adds fullness to restore youthful curves to the cheeks

Gives a thin, well-defined jawline

A recent study showed that 98% of those who had JUVÉDERM® VOLBELLA® with lidocaine reported that their lip appearance goals had been achieved; with results lasting up to a year

'If someone else I know was considering treatment, I would definitely recommend it' — Joy

A recent study showed that 98% of patients rate the aesthetic results of JUVÉDERM® as good or very good after 6–18 months, depending on the product.

Loved by millions

Finding the right physician

The first step towards your JUVÉDERM® treatment is to find a skilled physician you can trust. Many physicians are trained to inject JUVÉDERM® in expert ways. Make sure you ask your physician about their experience and results with other patients.

What to expect before treatment

Your physician will have an in-depth consultation with you to understand exactly what your needs are and what you would like to enhance. They will explain all the options to make sure that your JUVÉDERM® treatment satisfies your expectations.

What to do after treatment

Your physician will advise you on your aftercare. You may be advised to stop wearing makeup for up to twelve hours. You may also be told to avoid sun, sauna and steam rooms for two weeks. Some people experience a little temporary tenderness, swelling or bruising around the injection sites.

The final effect

As JUVÉDERM® is non-surgical, there is very little recovery time. You may well find that people comment on your refreshed, bright look rather than pin-point the actual reason you look better. This means that the results are subtle and natural-looking. And, when you know you look your best, it's so much easier to radiate inner confidence and shine in every aspect of your life.

Loved by millions

JUVÉDERM® has been used in over 26 million treatments worldwide.

JUVÉDERM® is made by Allergan, a global health care company that pioneered the development of medical aesthetic treatments more than thirty-five years ago.
