Congratulations on becoming one of the millions to experience the difference that JUVÉDERM® makes to the way you look and feel.

It is very important that you keep a record of your JUVÉDERM® facial filler treatments, as the different products in the JUVÉDERM® range work in different ways and last for varying amounts of time. It also helps your medical practitioner to know exactly what enhancements you have had, when, and the name of the medical practitioner who treated you.

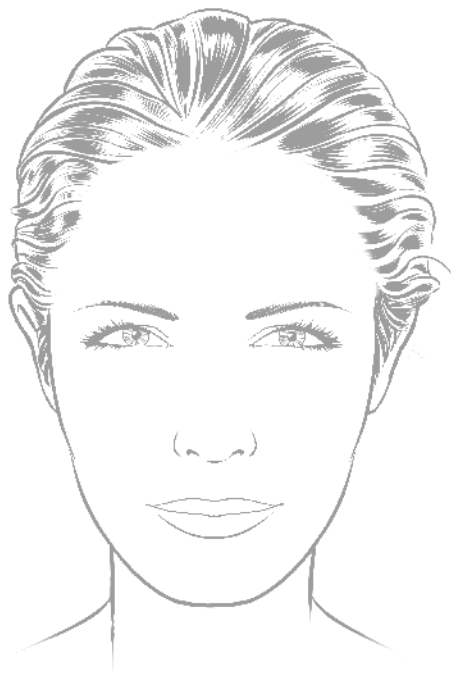

Your treatment passport is the best way to keep an accurate record of all your enhancements. It will also help you to remember when you might need a top-up treatment.
